Other reasons for dissatisfaction are the Angio-Franco-American alliance, from which Italy was excluded; the asserted project that the former Austrian merchant marine will be divided among the allies, although it is held it belongs entirely to Italian firms; the clause in the treaty with Germany saying the three principal powers were sufficient to ratify the treaty, thus, it is alleged, again excluding Italy, and the reported scheme to place Ethiopia under the protection of France. All the newspapers of Rome publish adverse comments on these subjects.

Cotton, John R. Paine as Don Manuel Gayoso, Lieut. Estes Armstrong as Isaac Gulon, his ancestor, who took possession of Memphis in revolutionary-times, are among the principal characters in the gigantic pageant. "The Blossoming of the Century Plant," to be presented on Memphis streets Wednesday evening, May 21, in connection with the centenary celebration.

Beginning with a magnificent float, upon which will be presented a Spanish caravel of the period of Hernando DeSoto's time, 1540, thirty magnificent scenes having to do with Memphis history will pass in succession. Each period of the Bluff City's past will be reproduced with historic accuracy culminating in the cimax. The Blossoming of the Century Plant," an allegorical representation of the dreams and plans of explorers and early settlers come true.

Dream of the Future.

Dream of the Future.

As previous floats depict the spirit of the past, so will the climax of the pageant carry with it the hope of the future. All that shall precede will lead up to this climax, all that has been accomplished by Memphis in, a century will here be suggested. The costumes, classic in design, will all be made in Memphis. The personnel of those presenting the tableau on this float has not yet been announced.

A panorama of patriotism, a float depicting Memphis boys breaking the Hindenburg line and others showing advances in industry; the arts and civic affairs will be shown all brilliantly lighted and all reflecting the birthday and holday spirit. A picture of "Diversification" will be none the less interesting, in which all the cereals will be depicted by beautiful maidens and children, and a float carrying "Little Viger," the fire engine used in Memphis in 1830, also will have peculiar interest. History Pageant's Theme.

As sketched by Mrs. Anna Robinson Watson, the panorams will consist of 30 floats, presenting in sequence the salient events in the life of Memphis, with their significance to the life of the surrounding territory. Besides the floats several bands, besultifully caparisoned horsomen and women will aid in rounding out the kaleidoscopic review.
